#### Qualifications:

Utah is recognized nationally as the best managed state in the country. As a member of the Utah State Senate, I have been an integral part in the policies and initiatives which brought this about.

As a father, grandfather and small business owner, I know the importance of providing for my family and my employees. I have to pay taxes and meet deadlines just like everyone else.

I have served on committees dealing with education, transportation, natural resources, criminal justice, economic development, taxation and health care.

I am a fiscal conservative and believe in restricting the growth of government, better utilizing existing funds and developing responsible taxation policies.

Each year I send a questionnaire to my constituents in Senate District 6 soliciting their input on upcoming legislation. I compile those statistics and base my votes in the Senate on the results. I do everything possible to keep in touch with my constituents and make myself available to answer questions and provide help when necessary. I have a reputation in the Senate for being accessible to the people I represent.
