

Name: Leonard Olds
Office: Salt Lake County Mayor
District: Not applicable
E-mail address: oldsmc3@earthlink.net
Website: None
Age: 83 years old
Occupation: Retired Metallurgical Engineer
Residence: 1033 E. Buddlea Dr
White City Township, Sandy
Years at residence: 7 years

Qualifications:

My 47 years of experience in engineering research and development has allowed me to solve problems by identifying the root cause of each problem thus avoiding extraneous programs that fail to address the real issues involved.

For over the past 30 years I have also been active in studying and promoting the important concepts of limited government. With this background I am able to recognize that the pending bankruptcy of our Federal Government will have a major impact both on our County government and on Salt Lake County citizens. This problem needs to be immediately addressed on a County level.

My technical experience also allows me to effectively fight the politics of fear associated with the pseudo-science that is driving many of our flawed governmental programs. In this connection I am one of the 31,000 engineers and scientists that have signed the Global Warming Petition Project bringing the good news to Salt Lake County citizens that there is no convincing scientific evidence linking CO2 emissions with Global Warming.
