

Greg Parkinson

My Service and Experience

- Married for 25 years with 5 children
- Served 8 years in the United States Air Force
- Served 10 years in Boy Scouts of America
- Earned a Bachelor of Science degree with a double major in Mathematics and Computer Science
- Software Engineer at WordPerfect Corporation for 2 years
- Software Engineer at Folio Corporation for 5 years
- Chief Software Architect at Ancestry.com for 10 years
- I enjoy spending time with my family, watching my children's soccer tournaments and track events, exploring Utah's beautiful scenery, cycling and photography.

I'm running for Highland City Council because I believe that I can make a real difference and make Highland a better community. I've been attending many of the recent city council and planning commission meetings to make sure that I understand the issues that are affecting our community. I'm very detail oriented and I will spend the time it takes to understand the different issues and make sure we get even the "small" stuff right.

Decisions with long-lasting and far-reaching consequences are regularly made at Highland City Council meetings. I will base my decisions on the guidelines of *absolute integrity, financial discipline, and family values*. I welcome your participation and involvement to help ensure that we make the right decisions together.
